

ACTION INDUSTRIES IS THE EXCLUSIVE DISTRIBUTOR OF FLEX BRUSH

Flex Brush is the convenient, money-saving alternative to traditional metal-back brush seals. Made of rugged yet lightweight and pliable materials, Flex Brush weighs up to 40% less than conventional brushes and is available on reels — drastically lowering shipping costs and streamlining production.

OTHER PHYSICAL PROPERTY ADVANTAGES:

- Eliminates scrap and splices
- Easy transport, storage, handling and installation
- Can be cut on-site to the exact length required
- Resistance against corrosion and chemicals
- Homogeneous bond between the backing material and the filament
