

# TAPE

## 3M® VHB TAPE

Strong VHB tape provides the simplicity of a tape fastener with the strength of bolts, screws and other fasteners. Multi-purpose adhesive on both sides of conformable foam. Conformable tape provides excellent bonding to relatively irregular surfaces and mixed substrates. Excellent adhesion to metal, glass and a wide variety of plastics. Can be applied at 32° F and is temperature-resistant up to 300° F.

<i>PART NUMBER</i>	<i>DESCRIPTION</i>
Z0000-00-Z	3M® VHB, 3/4" X 36 Yards, Gray
Z0001-00-Z	3M® VHB, 1" X 36 Yards, Gray

## VERY HIGH BOND FOAM TAPE

Action Industries now offers an alternative "very high bond" foam tape that can be used in place of mechanical fasteners. This cost-saving tape is in many cases 70-90% as effective as 3M® VHB. This tape is currently used on many body-side moldings in the auto industry. We recommend initial testing to determine suitability for each application.

<i>PART NUMBER</i>	<i>DESCRIPTION</i>
Z0000-45-Z-20*	High Bond, Acrylic, Foam, 3/4" x 20 Yards, 45 mil., Gray
Z0001-45-Z-20*	High Bond, Acrylic, Foam, 1" x 20 Yards, 45 mil., Gray

\*We do not recommend the alternative tape for highly irregular surfaces, such as concrete aggregate.

## SAFETY TAPE

<i>PART NUMBER</i>	<i>DESCRIPTION</i>
ST100-00-Z	3" x 36 Yards, Yellow & Black
