

HomeLink® Compatibility Bridge Program

Connect HomeLink to Our Latest Technology

LiftMaster®

The Compatibility Bridge

HomeLink®, a leader in the automotive industry, is a vehicle-integrated system that controls garage door openers, gate operators and home lighting. As technology advances, we often need to connect to existing devices still in use. Some cars need a Compatibility Bridge to properly program the HomeLink system to our full line of MyQ®-Enabled Garage Door Openers.

Preparation Is Key

These quick, easy steps will ensure a fast and knowledgeable installation:

- 1. Know Before You Go**—Be sure to ask the Customer for the make, model and year of their cars. Then:
 - A. Go to LiftMaster.com/HomeLink or Dealer.LiftMaster.com > Resource Center > HomeLink to find out if you need to use a Compatibility Bridge. A built in web based application allows you to find out!
 - or-
 - B. To determine if you need to install a Compatibility Bridge, enter information at HomeLink.com.
 1. Go to HomeLink.com
 2. Click “Program my HomeLink”
 3. Select “Program a garage door opener”
 - or-
 - C. If you are unable to confirm the need for a Compatibility Bridge on HomeLink.com or LiftMaster.com, as a general guideline:
 - Vehicles 2006 and older, install with a Compatibility Bridge.
 - Vehicles 2007 and newer, program once normally.If HomeLink does not program, use a Compatibility Bridge.
- 2. Battery Backup**—If a Customer has a Garage Door Opener with Battery Backup, and they are using a Compatibility Bridge, please ask them to put their original garage door opener remote control in their glove box so they can have access during a power outage.

Ordering Compatibility Bridges

Order HomeLink® Compatibility Bridge as needed so you're always prepared. By having Compatibility Bridge with you, you'll always have the equipment you need to complete the job on the first visit.

To Order HomeLink Compatibility Bridges

Visit **Dealer.LiftMaster.com** and enter part number HOMELINKBRIDGE4PAC

Lear Car2U Systems—An alternate solution to HomeLink is Lear, no longer in production, but still in the market. Lear repeaters are different than HomeLink and can be identified by having 3 LEDs. For your convenience, Lear repeaters are now available for purchase on the Dealer Extranet (Dealer discount applies as usual).

HomeLink® Gives You the Resources to Ensure a Successful Installation

- Visit **LiftMaster.com** or **Dealer.LiftMaster.com** for installation videos and instructions.
- To order Compatibility Bridge, visit **Dealer.LiftMaster.com** and add part number HOMELINKBRIDGE4PAC to your cart. Each pack contains four Compatibility Bridges.
- HomeLink Compatibility smartphone app is now available, so you can determine if vehicles need a Compatibility Bridge while you're on the road. Go to Bridge.LiftMaster.com on your or mobile device, and save the URL to your homescreen! An "app" button will be created which can be used repeatedly.
- iPhone users: Launch Safari and go to Bridge.LiftMaster.com. At the bottom of the screen tap the box with the up arrow , then tap 'Add to Home Screen' .
- Android users: Launch Chrome and go to Bridge.LiftMaster.com. Tap the menu button and tap 'Add to Home Screen' .
- For other devices please check the user's manual as to how to add this Web App to the home screen or just use it on the computer.

(HomeLink Compatibility Bridge not intended for resale.)
