# PENETRATING LUBRICANT

### DESCRIPTION

A superior blend of lubricants, solvents and moisture displacing oil. Foaming action provides extended penetration and moisture displacement. The light foam of this product allows for "creeping" in any direction.

### FEATURES AND BENEFITS

Outstanding penetrant that loosens the toughest rust. Contains oily lubricants to assist in removal of nuts back off threads. Penetrants creep between mating parts for faster, safer loosening. Foaming action minimizes run off and keeps more product working on the rusted part.

### APPLICATIONS AND USES

Penetrates, busts rust, cleans, displaces moisture, protects and provides long term lubricity on any surface.

### DIRECTIONS FOR USE

Shake well before using. Spray PENETRATING LUBRICANT on all corroded, rusted or frozen parts. Let stand for several minutes to allow thorough penetration. If necessary, tap lightly to speed and insure penetration. In extreme cases, a second application may be necessary.

### SIZE / AVAILABILITY

20 oz. Aerosol  
Net Weight 15.75 oz.  
12 per case

### STATE RESTRICTION

None.

### PHYSICAL AND CHEMICAL PROPERTIES

Density	6.55 lb/gal
Density VOC	1.32 lb/gal
% VOC	20.1%
Appearance	Black, thin liquid
Odor Description	Petroleum
Flammability	Flash point below 73°F/23°C
